

Theater Specifications

We are a non-union, State of the Art, Live Performing Arts Theater, with a full-time staff.

Loading Entrance Information:

The loading dock is located at the back of the theater, facing Lyons Road. The Roll-up door measures 10' x 16'. The dock accommodates one truck.

Seating Information

Our capacity is 625 with a raked floor at a ratio of 1:8 with 5 foot of elevation to the back of the theater. Seats are offset, providing excellent viewing throughout. We are handicapped accessible and can accommodate up to eight (8) wheelchairs. A seating overview can be found by clicking [here](#).

Orchestra Pit (Niche)

The orchestra niche is unique in that it is located house right. It is "D" shaped and measures 35' x 12'6" and will accommodate up to 16 musicians. The niche is isolated and acoustically set-up for excellent sound quality and outfitted with microphone inputs and monitor outputs, as well as Intercom positions.

Rental

The theater, located at 2452 Lyons Road, is available for rent, for a variety of presentations, including full scale Musical Productions, Concerts, Dramatic plays, Dance Recitals, Beauty Pageants, and Graduation Ceremonies, etc.

Features

Computerized Lighting, Digital Sound, Line Array Speakers, 27 UHF Body Mics, and a twenty-three-line set Fly System, Dressing Rooms (SL & SR) with shower and bathroom facilities. Twenty-foot wings, stage right and stage left. We also have a 7 foot Grand Piano available for orchestral use.

A Note from Our Sound Engineer

Our Theater Audio System is a complete digital experience. A Digital Audio Workstation offers real-time control and visual monitoring of equipment on four flat screen monitors. Networking of our BSS loudspeaker management, Crown I-Tech/JBL monitor system, Shure wireless mic systems, and the Yamaha PM-5D Console, as well as simultaneous dual hard drive Playback/Record functions, is only a wireless mouse click away.

A Note from Our Lighting Designer

The Theater lighting system features an Avolites Titan Mobile with an MSI Intel Core i7 computer, and ETC Ion console as backup thru a Doug Fleenor A/B switch. Light shows can be recorded “cue to cue” and stored for extended engagements. Our theater features moving lights and LED fixtures combining modern with conventional lighting and multi-color LED cyc.

Stage

Stage floor is wood over wooden sleepers, making an exceptional dance surface, great for tap. We do allow, on occasion, the floor to be drilled into to ensure sets are secured.
