Notes from the Board...

Thanksgiving: Gobble 'Til You Wobble!

By Melissa Jannen

Thanksgiving is the perfect time to reflect on what we're thankful for: family, friends, good health, and elastic waistbands!

It's a time to enjoy good food, share a few laughs, and remember that the best part of Thanksgiving dinner is tomorrow's leftovers. And if everything goes smoothly, nobody burns the rolls or argues over who makes the best stuffing!

As we celebrate this season of gratitude, let's remember that a little kindness, a lot of laughter, and good company are always worth giving thanks for.

★ Wishing everyone in the TCMA family a wonderful Thanksgiving! ★ May your turkey be juicy, your pie be plentiful, and your cleanup crew be enthusiastic!

ATHLETIC CLUB - Sports & Fitness

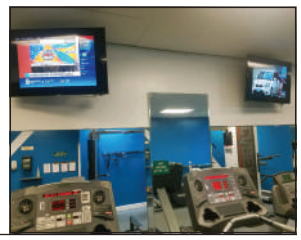

Athletic Club

I am writing to all of my Township Residents a little reminder about the benefits of staying active. The mental health benefits include mood enhancement triggering the release of chemicals that make you feel good like endorphins, dopamine, and serotonin which reduce stress, anxiety, and depression. It helps with your brain function including memory, focus, and judgement by increasing blood flow and growth of new brain cells. It also helps with sleep quality promoting deeper and restorative sleep cycles. Activity also helps with stress regulation lowering hormones like cortisol. Remember to stay active. Even small amounts of activity help. Your Athletic Club and our surrounding facilities all have available activities to be enjoyed. I hope to see everyone out and about.

Are You Living With, Or Worried About Someone Suffering With Chronic Back Pain?

By Leading Back Pain Expert, Todd James

Do you, or someone you love, suffer with back pain? Does the pain get worse when you stand or walk? Do you experience pain, numbness or tingling into your butt or down your leg? Do you have pain when you sit for long periods or drive? Are you afraid your pain will get worse if you don't do anything about it? Has the pain gotten so bad, that you avoid many activities that you used to enjoy?

If you are 55+ and answered **YES** to any of these questions, then please read on because I have some special information about relief of your back pain.

It's a shame so many people think their options for dealing with back pain are rest, pain killers, or maybe worse, injections or even surgery. Often these solutions are only temporary, because they don't address the true cause of your back pain, but just mask the symptoms. Others believe there is nothing that can be done, and they will just have to suffer through the pain.

If you or someone you love is experiencing back pain and are wondering if you are doing the right things for your back, I would like to offer a free guide I have created to answer those questions. In this guide, **Erasing Back Pain:** How to Avoid the 9 Most Painful Mistakes and What You Should Be Doing Instead, you will find information about what will not help ease your back pain and how to make the right choices to get you out of back pain and on the road to enjoying an active, healthy lifestyle again.

I'm Todd James, Physical Therapist and I have been helping 1000s of people 55+ over the last 2 decades find quick, natural, long lasting relief from back pain. I've put together this guide because in easing your back pain it's not just about doing the right things, but also about avoiding the wrong things. When you choose the right path, your recovery from back pain will be much more effective.

If you are currently held back from getting a good night's sleep, being able to walk with friends, getting out on the golf course, or playing with the grand-kids, I invite you to visit **www.coconutcreektherapy.com/backpain** to claim your free guide. If you prefer, give us a call at **954-972-1200** and we'll be happy to assist you.

Don't let back pain take the joy out of your life. Get started on your path to a pain free active life!

The Property Appraiser's Office does not set your tax rates, collect property taxes, or determine how the tax revenue is allocated by local government. The property tax bills are sent by the Broward County Tax Collector's Office. If you have questions regarding the payment of your tax bill, the Tax Collector's Office can be reached at 954-357-4829 or you can visit their website at https://browardtax.org/.

Where Is My 2027 Homestead Exemption?

The tax bill you received this month from the Broward County Tax Collector is for the 2026 tax year. If you acquired your home in 2026 and the previous owners of your new home lawfully received Homestead Exemption or any other exemption on January 1, 2026, you may have inherited their exemptions on your 2026 property tax bill. Florida Statutes require these 2026 exemptions to be removed, and the property be reassessed at the full Just/Market Value for 2027. This may result in an increase in your 2027 property taxes. It is important that you apply for your own Homestead Exemption in your name if you believe you are eligible for 2027. Your new 2027 Homestead Exemption will be reflected next year on all 2027 property records, notices, and tax bills. You can apply for Homestead Exemption and any other exemptions you may qualify for online at https://web.bcpa.net/bcpaclient/#/HomesteadExemption.

If you have questions regarding your Homestead or other tax-saving exemptions, please contact our Exemptions Department at 954-357-6830.

Reset Your Body: How Modern Acupuncture Heals Pain, Stress, and Cronic Fatigue

By Marcus Smith, Licensed Acupuncture Physician

Modern acupuncture has evolved far beyond its ancient origins, transitioning from a traditional art into an evidence-backed therapy integrated into mainstream medical settings. By combining centuries of clinical observation with modern neuroscience, acupuncture offers a drug-free, non-invasive approach to managing a remarkably broad spectrum of everyday health challenges.

At its core, modern acupuncture involves inserting ultra-fine, sterile needles into specific anatomical points on the surface of the body. Research shows these points stimulate the central nervous system, triggering the release of natural pain-relieving endorphins, dampening systemic inflammation, and regulating automatic biological processes. Modern variations—such as electroacupuncture, which applies mild electrical currents to the needles—further enhance these physiological effects.

Comprehensive Relief: How Modern Acupuncture Works

• Acute & Chronic Pain: Whether treating sudden sprains, postsurgical discomfort, or persistent conditions like osteoarthritis, low back pain, and migraines, acupuncture alters pain signaling pathways in the brain and spinal cord to deliver long-lasting relief.

• Digestive Health: By modulating the vagus nerve and the gut-brain axis, acupuncture helps regulate gut motility and reduce inflammation, offering relief from conditions like irritable bowel syndrome (IBS), chronic bloating, nausea, and acid reflux.

• Insomnia & Fatigue: Needling calms hyperactive brain waves and supports the body's natural melatonin production. This promotes deeper sleep cycles, reduces nighttime awakenings, and restores daytime energy levels.

• Allergies & Respiratory Issues: Acupuncture acts as a natural immunomodulator. It helps down-regulate histamine responses to ease seasonal allergies (allergic rhinitis) while reducing airway inflammation and tightness associated with asthma and sinus congestion as well as COPD.

• High Blood Pressure & Stress: By balancing the autonomic nervous system, acupuncture reduces sympathetic "fight-or-flight" activity and shifts the body into a parasympathetic state. This shift actively lowers stress hormones like cortisol, relaxes blood vessel walls, and supports healthy blood pressure regulation.

High-Profile Endorsements: From Elite Arenas to Hollywood Sets

The widespread rise of modern acupuncture is reflected in how leading athletes and public figures rely on it to stay at peak physical and mental form:

• Elite Sports & Longevity: Basketball legends like LeBron James and Stephen Curry utilize acupuncture to bounce back quickly after grueling games, target acute muscle soreness, and manage chronic joint strain. During the Olympics, world-class athletes—including 24-time Grand Slam champion Novak Djokovic and legendary swimmer Michael Phelps—frequently rely on acupuncture and cupping to optimize muscle recovery, increase blood circulation, and shorten injury rehabilitation timelines.

• Hollywood & High-Stress Demands: Performers often turn to acupuncture to handle demanding schedules and manage stress. Actor Robert Downey Jr. has credited acupuncture as an essential part of his wellness routine, keeping him physically fit, energized, and mentally focused during intensive film productions. Meanwhile, Oscar-winning actress Sandra Bullock has highlighted acupuncture's benefits for maintaining emotional balance, managing stress, and accelerating recovery from physical strain.

What to Expect & Getting Started

If you're considering acupuncture, the process is straightforward and gentle. During an initial consultation, a licensed practitioner evaluates your overall health history to map out a specific treatment strategy which will be explained to you in depth to allow any questions or concerns you have to be addressed. Once treatment begins, the sensation is typically minimal—often described as a slight heavy or warm feeling rather than sharp discomfort. While acute problems like a recent sprain or sudden allergy flare-up may resolve in just a few visits, chronic conditions generally see gradual cumulative improvements over of time.
